

Step Lite Louvre

Cat. No. SLLU
Cat. No. SLLUGU

The Step Lite Louvre has a flush to the surface look with the protrusions. The 45 degree louvers eliminate all upward light, making this luminaire ideal for providing illumination of steps and low level features such as exterior paved areas.

A GU10 version of this luminaire is also available for line voltage lamps. However, a longer luminaire body is needed to accommodate the longer lamp.
