BLACK LABEL WARRANTY

When you purchase or specify a Hunza® luminaire, you get the benefit of the legendary Hunza® reputation for high quality and long life. We back this up with extended warranty, offering up to 10 years on body components and 5 years on the integral PURE LED™ system. Warranty on plug-in (drop-in) LED lamps is limited to 1 year. When installed and maintained properly Hunza® luminaires will last a lifetime so we keep serviceability firmly in mind when designing the components and system construction.

Hunza® Five Year Warranty*
All Hunza® aluminium luminaires with a UV stable powder-coat finish have a five-year replacement warranty, subject to standard conditions listed below. Integral PURE LED™ components are limited to 5 year warranty. Warranty on plug-in (drop-in) LED lamps is limited to 1 year.

Hunza® Ten Year Warranty*
All Hunza® stainless steel and copper luminaires have a ten-year replacement warranty, subject to standard conditions listed below. Integral PURE LED™ components are limited to 5 year warranty. Warranty on plug-in (drop-in) LED lamps is limited to 1 year.

Hunza® Lifetime Warranty*
All glass lenses supplied with Hunza® luminaires have a lifetime warranty.

*** STANDARD CONDITIONS:**

- The environment in which the fixture is to be installed must be considered carefully when selecting the finish. Stainless steel luminaires are recommended for high-risk environments such as near salt water. Aluminium luminaires may not be covered by the full warranty in these situations.
- Stainless Steel requires regular cleaning with fresh water when installed in salty environments. (Refer to instructions supplied with luminaire).
- Hunza® underwater fixtures are not covered by warranty in situations where there are chemical imbalances in the water.
- Warranty excludes impact damage, incorrect installation and incorrect re-assembly.
- Fixtures must be kept properly maintained, including replacement of gaskets and lenses when necessary.
- Hunza®, at its discretion, may replace components or the complete fixture.
- Hunza® warranty is limited to the repair or replacement of products ONLY, labour charges will not be accepted.
- Hunza® will not be liable for any labour charges for any repair or replacement of defective drivers.
- Drivers have their own manufacturer warranty and any faults will be at the responsibility of the manufacturer.
- Polycarbonate and acrylic lenses are limited to 5 year warranty. N.B. Acrylic lenses must NOT be cleaned with any petrochemical substance, warranty will be void.
- Warranty excludes halogen lamps and lamp holders, which are consumable items.

Please see the Hunza® website for full warranty information www.hunzaliveighting.com

At Hunza, we take pride in making the finest outdoor lights in the world. Engineered in New Zealand from the best materials, they enable extraordinary outdoor lighting effects, last for decades and are environmentally sustainable. Here are some core attributes that distinguish a Hunza luminaire:

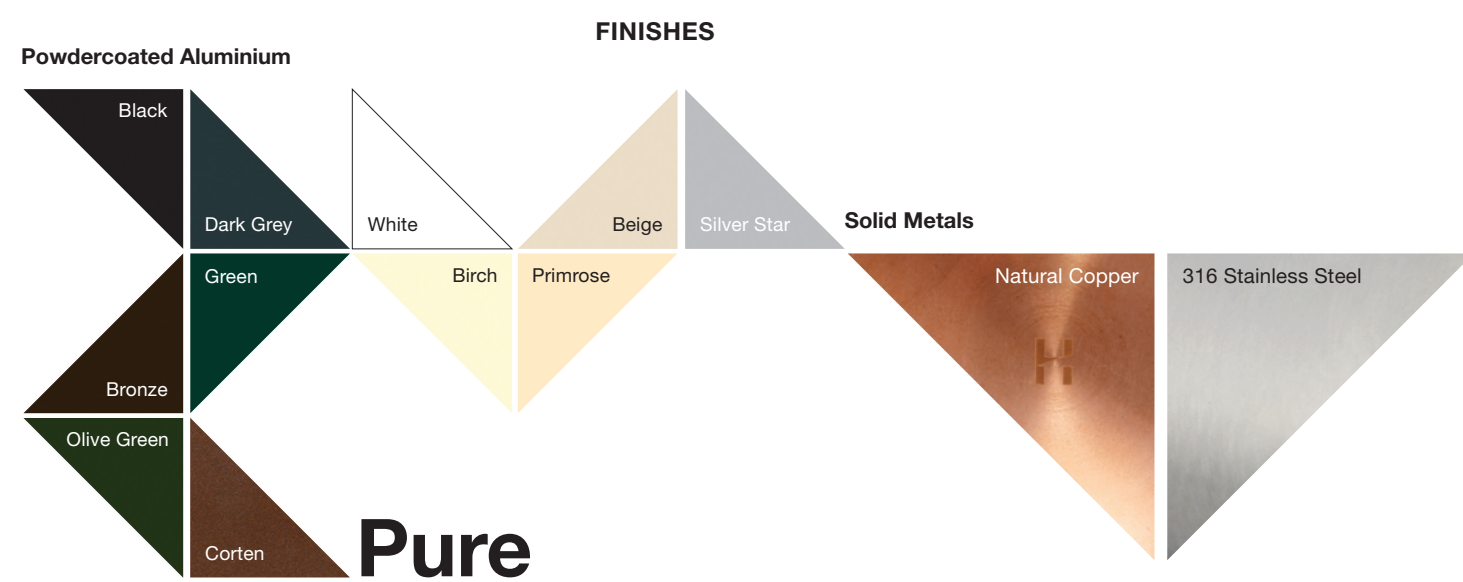

Exceptional Durability

1

All Hunza luminaires are designed to endure for decades. Outdoor lighting isn't just another part of our focus, it's our whole focus. We have the best technology and production processes in place to ensure that our lighting fixtures withstand the test of time.

We understand the high degree of physical stress outdoor luminaires are subjected to and that's why quality is an integral part of our daily approach to the development of new products. Our luminaires feature precision engineered bodies and the best components such as high temperature gaskets and CNC machined parts.

Pure Sustainability

2

Hunza is committed to sustainability. Our approach begins with a commitment to product longevity. Our products do not need constant replacement and require only minimal maintenance. They incorporate the latest energy efficient technology to minimise use of power and natural resources.

We provide a comprehensive range of low energy light sources for all our luminaires to help reduce power usage. Our PURE LED products are the most sustainable alternative to traditional lighting sources.

We also take pride in ensuring that our manufacturing processes have minimal environmental impact. Where possible, we specify materials that are easily recyclable.

Pure Precision

3

Hunza products are precision engineered from the finest raw materials and components. We use only refined aluminium, natural copper or 316 stainless steel. Our luminaires are designed and CNC machined using the latest 3D software that assures total accuracy and performance.

No mass production. No assembly lines. Quality allows no room for compromise or errors. Each luminaire we produce is meticulously crafted using the latest CNC machining technology and then hand assembled by
